

# Universal Elite Short Throw Wall Mount

Made by Elite

The Universal Elite Projector Track Mount is designed to suit fixed lens projector models that need to move towards/away from the screen to adjust the image size. Wall models suit ultra short throw projectors, particularly with Interactive Whiteboards. The Ceiling Mount model can be used with any fixed lens projector to give it a zoom capability. The modern attractive design has concealed cable management and end cover plates.

- Super strong aluminum extrusion  
- up to 20kg capacity
- Attractive design for home theatre and installation projects
- Mix and match bracket module (3 lengths) and screws to adapt to most projector attachment points
- Silver Powdercoat finish
- Cables are concealed inside track extrusion and come out end cap to attach to projector
- Compact, lightweight design
- Multi-directional locking ball joint allows swiveling of projector
- Easy installation system
- Up to 20 degrees projector tilt (adjustable)
- Ceiling track model can be mounted flush to ceiling or extended on covered threaded rods
