Hon. Dr David Clark, Bahrain Ambassador HE Ahmed Alhameiri

Formally launched in October 2022, by Hon. Dr David Clark (Minister for Digital Communication) and His Excellency Koichi Ito (Japan Ambassador to New Zealand) – click [here](#) to watch the video.

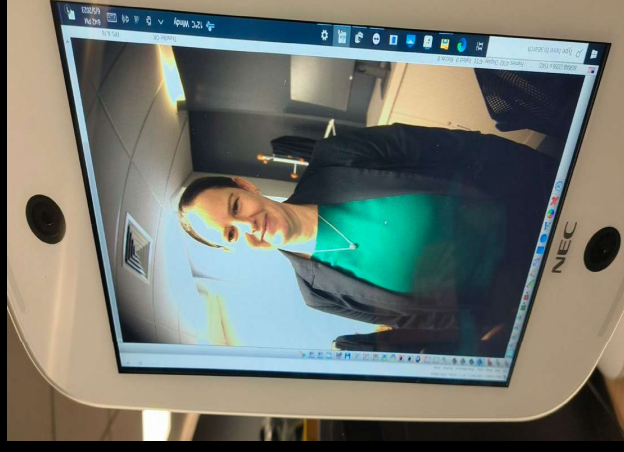

The NEC Innovation Lab is a technology space created for:

- Demonstrations,
- Experiencing exciting, innovative technologies,
- Exploring creative concepts, and working through ideas.

You'll find the NEC Innovation Lab dynamic, featuring new and ever-changing technology. Core technologies and solutions include:

- Facial Recognition Solutions,
i.e. FacePay Vending Machine,
Law Enforcement Workstations,
Visitor Management, Tech demos...
- An eGate (building access / airports)

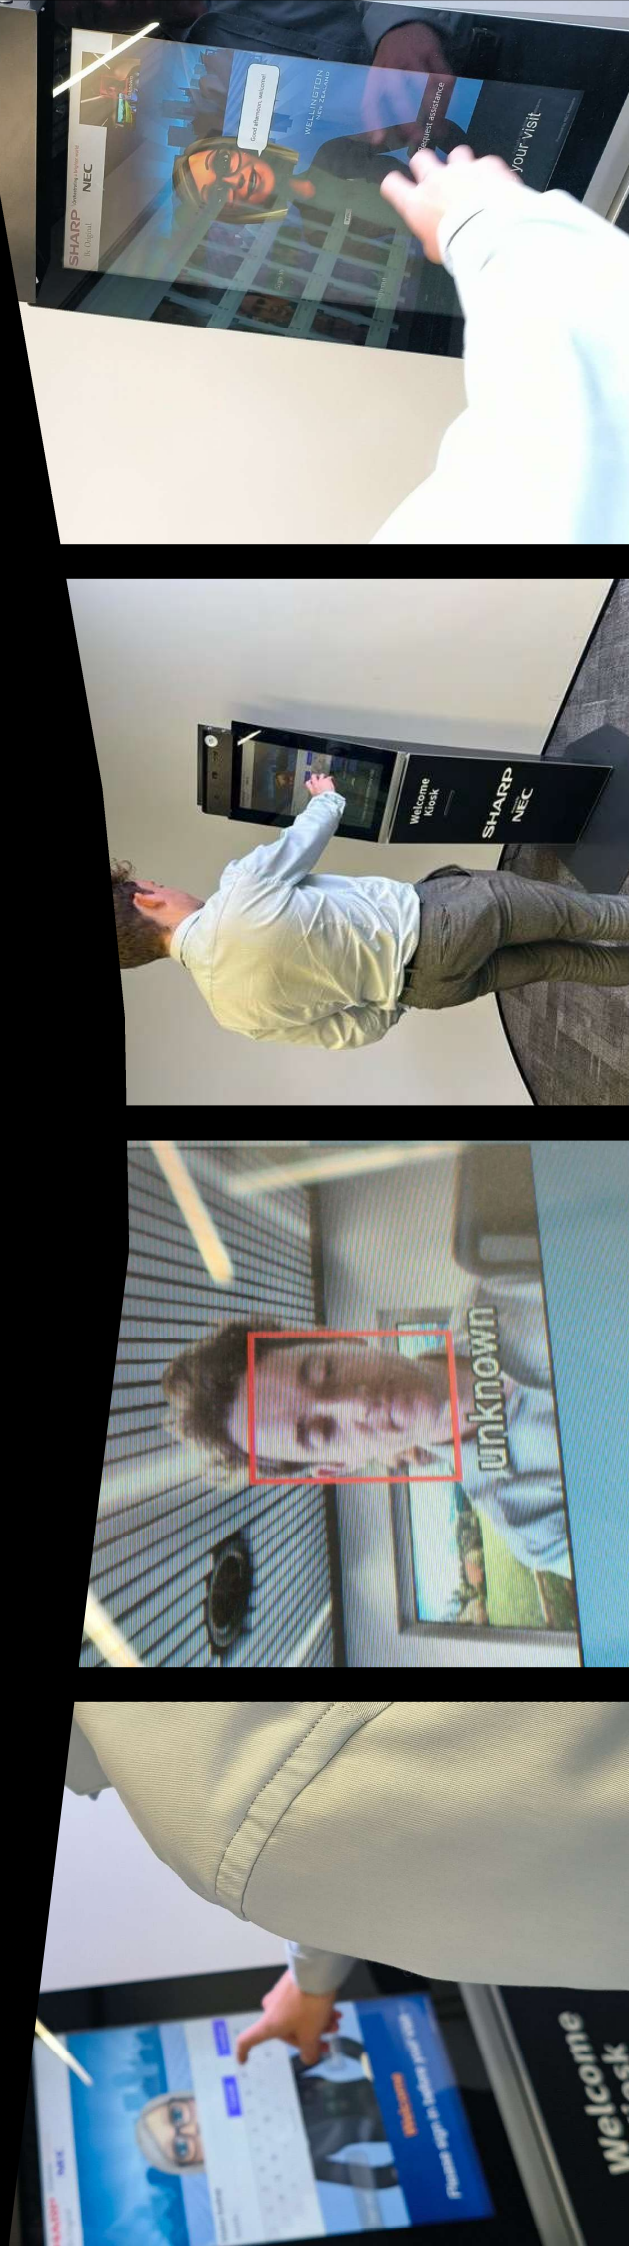

- Iris recognition
 - Fingerprint solutions
 - Intelligent networks
- ...and more!

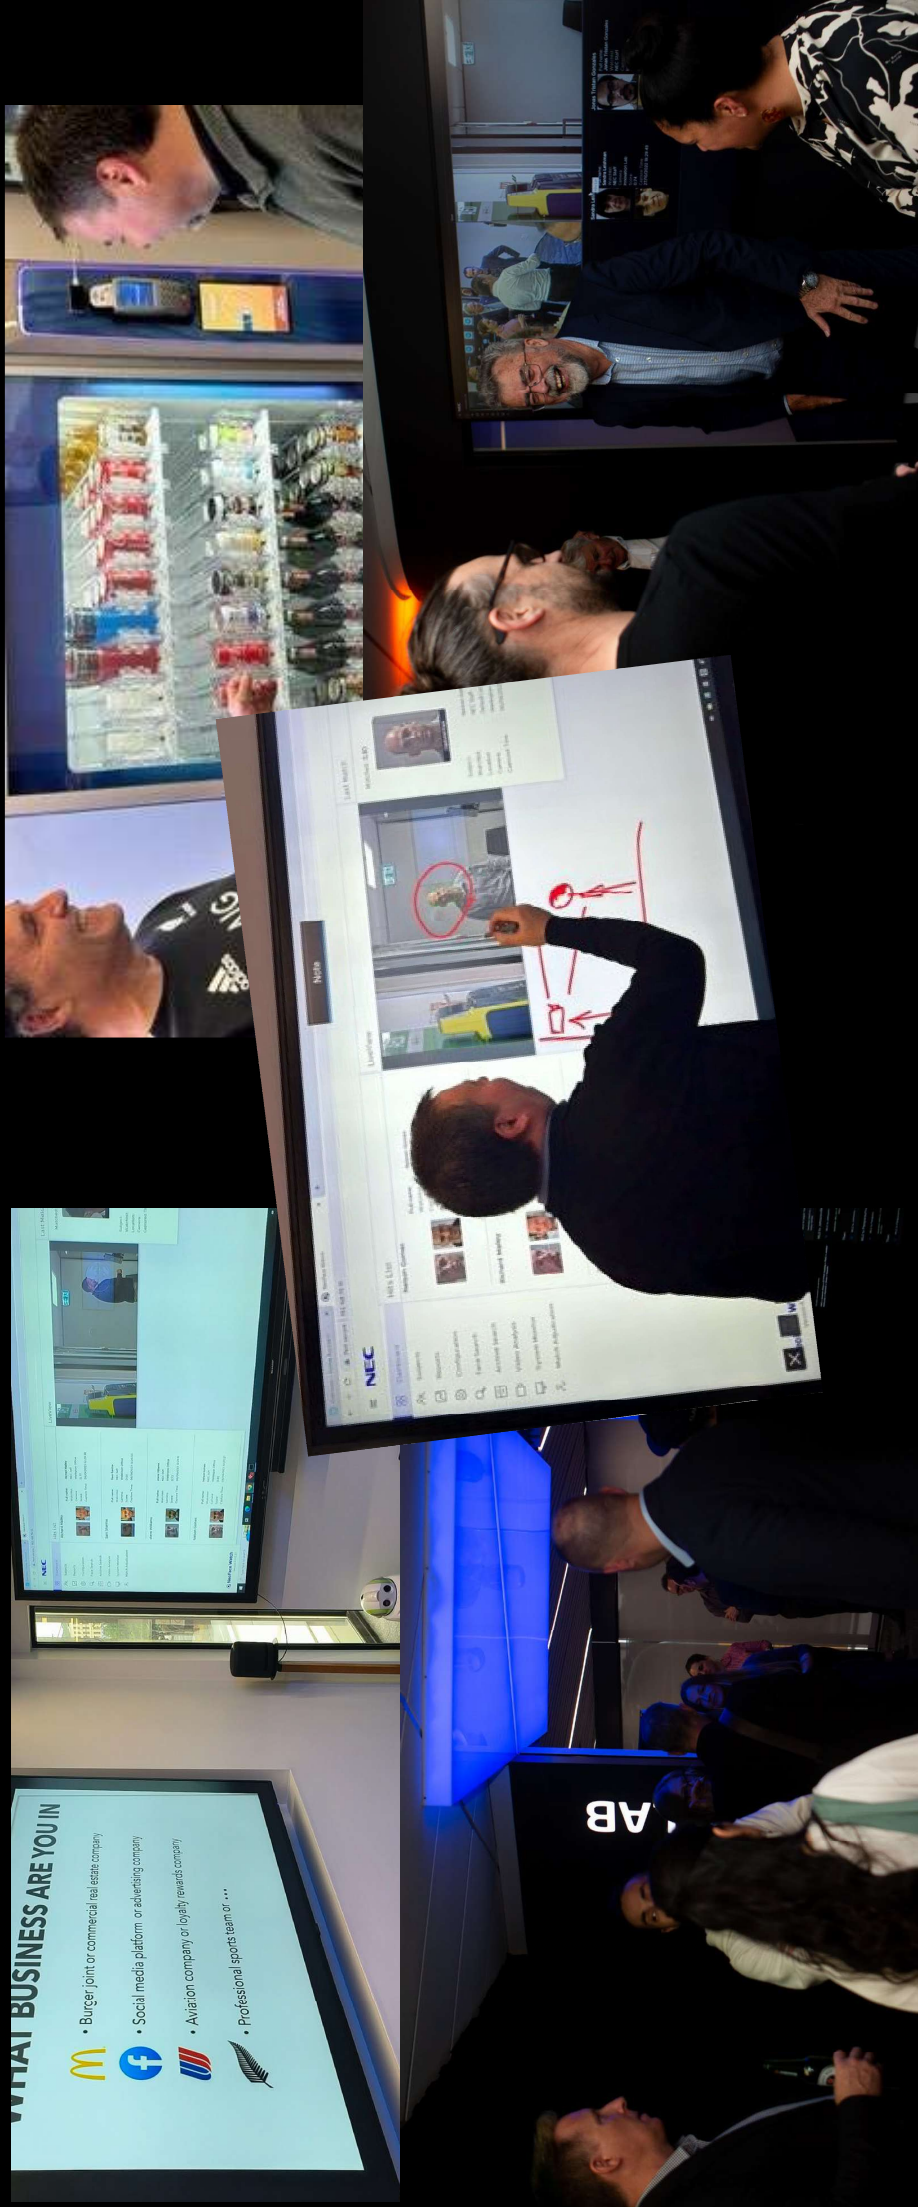

We love to talk about innovative solutions! At what ever level you want.

We invite you to be curious and ask questions.

Demo's can also be interactive.

Discover a wealth of tools, technologies and expertise at the NEC Innovation Lab.
